

MISSION STATEMENT

We seek to bring glory to God by teaching our children according to Biblical standards. We believe that the parents are primarily responsible for educating their children. This co-op will exist to encourage the parents, equip the parents, and teach/train the children according to the pattern laid down in the Scriptures. Therefore, we believe that teaching our children about Jesus Christ, and how they can be saved is of paramount importance. We also seek to make disciples of our children, teaching them how a Christian ought to live. We also desire to teach our children about God's creation through such avenues as history, science, literature, math, etc. We will strive for excellence in all areas with God's grace.
